

Tread Wear Protection

Eligibility

This warranty applies to the original purchaser of a replacement Dick Cepek light truck tire and is nontransferable. Eligible tires must be purchased new and used on the vehicle which they were originally installed. Proof of purchase is required for all warranty claims. Additionally, they must be the size, load index, and speed rating equivalent or greater than that specified by the vehicle manufacturer. This warranty applies to the 48 contiguous continental United States, District of Columbia and Canada. For warranty exclusions see "WHAT ISN'T COVERED" in the Dick Cepek Standard Warranty.

The following Tread Wear Warranty is a prorated warranty (there is no free replacement period) based on mileage received, and is separate from the Standard Coverage & Extra Coverage Warranties just covered. No manufacturer or dealer can guarantee you a certain number of miles from a given tire. Driving habits, driving conditions, tire and vehicle maintenance all play a part in the tread life of a tire and all differ with each purchaser. The following replacement Dick Cepek (Trail Country) Radial Light Truck tires only are warranted against tread wear out prior to the applicable indicated mileage:

- **Dick Cepek Trail Country - 50,000 miles* (80,000 km*)**

*Mileage Warranty applies to Passenger and Light Truck lines.

The Tread Wear warranty is available provided the eligibility above is met and you:

1. are the original purchaser.
2. rotate your tires in accordance with prescribed rotation patterns at least every 8,000 miles (13,000 km) and it must be recorded.
3. present the tire for adjustment.
4. present the completed rotation record form (attached) when requesting an adjustment and your original purchase receipt, date of purchase, vehicle type, model, odometer reading and rotation record are properly recorded.

If the tire wears to the tread wear indicators in less than the miles warranted, a pro-rated adjustment will be made according to actual mileage delivered. Your adjustment credit will be determined by dividing the

actual mileage delivered by the miles warranted and multiplying the result times the current selling price of an equivalent Dick Cepek tire. Adjustment credits can only be used toward the purchase of a new Dick Cepek tire. You must pay for mounting and balancing and any other additional charges, such as taxes or the acceptance of a higher priced replacement tire.
